ABSTRACT

This report is part of the National Center for Education Statistics' Tenth Annual Higher Education General Information Survey (HEGIS), and also part of the first Library General Information Survey (LIBGIS). Extensive statistical data are presented in seven lengthy tables as follows: (1) Number of Units Held at End of Year in Library Collection, 1974-75; (2) Number of Units Added to Library Collection, 1974-75, and Periodical Subscriptions, Fall 1975; (3) Library Operating Expenditures, by Category of Expenditure, 1974-75; (4) Number of Regular Library Staff in Full-Time Equivalents (FTE) and Contract Salaries and Wages for Regular Library Staff, by Position Category, Fall 1975, and Hours of Student Assistance, 1974-75; (5) Number of Full-Time Professional Staff, by Sex and by Highest Earned Degree, Number of Part-Time Professional Staff in Full-Time Equivalents (FTE), by Sex, and Number of Contributed Services Staff (FTE), Fall 1975; (6) Loan Transactions, 1974-75, and Physical Facilities by Type, Number of Hours Library Was Open per Typical Week, Number of Days Library Was Open 2 Hours or More per Typical Week, Classification System Used for New Acquisitions, and Participation in a Consortium, Cooperative Arrangement, and/or Network, Fall 1975; and (7) Indexes Concerning Operating Expenditures, 1974-75, Bookstock Held at End of Year, 1974-75, and Library Staff (FTE), Fall 1975. Data shown in this report are for the libraries of 2,962 colleges and universities and 18 jointly serving three or more institutions or branches, for a total of 2,980 libraries. The survey questionnaire is appended. (KM)

FOREWORD

Surveys of college and university libraries were initiated by the U.S. Office of Education for 1939-40 and conducted during the 1940's and 1950's at irregular intervals. During the 1960's nine institutional and five analytic reports were published. Institutional and analytic reports were released for 1971 and 1973. In 1967 these surveys became a part of the Higher Education General Information Survey (HEGIS) system and in 1975 also part of the Library General Information Survey (LIBGIS) system of the National Center for Education Statistics (NCES).

The data from the fall 1975 survey are issued in three reports. The first was a brief Early Release of selected data, published in December 1975. This report is a listing of the basic statistics, by institution. The third is an analytic report, containing summary data.

The three reports are based on a survey of college and university libraries conducted in the fall of 1975. This one provides basic statistics on the library collections, staffing, expenditures, and developmental areas.

The listings of 2,980 college and university libraries and joint libraries represent 98.1 percent of the universe of such libraries. The cooperation of the many individuals and groups concerned with academic libraries and these statistics made this publication possible. Their assistance is greatly appreciated.

Division of Multilevel Education Statistics

ACKNOWLEDGMENTS

Reports based on the College and University Libraries Survey are made possible by the cooperative endeavors of many individuals in the National Center for Education Statistics. Among them:

Arthur Podolsky, as project officer for the HEGIS X survey provided professional assistance.

Carolyn R. Smith, Augustine B. Rogers, and Ruth D. Minnis provided essential support in their specialties.

THE SURVEY AND THE DATA

Introduction

This report concerning academic libraries is part of the National Center for Education Statistics' 10th annual Higher Education General Information Survey (HEGIS) and also part of the first Library General Information Survey (LIBGIS). The seven statistical tables present detailed information for each institution concerning its library collections, operating expenditures, staffing, loan transactions, physical facilities, hours and days open per week, classification system used, participation in library consortia, cooperatives, and/or networks, and selected indexes.

This publication has no summary data or analysis of these characteristics, which will be provided in a companion volume, Analytic Report. To assist in the interpretation of the data in this volume, various technical aspects are presented in the following sections. The survey instrument and accompanying instructions are reproduced in the appendix.

Scope of the Survey

The data shown in this report are for the libraries of 2,962 colleges and universities and 18 jointly serving 3 or more institutions or branches, for a total of 2,980 libraries. Data for the members of joint libraries and the institutions that have no libraries are not shown in this report. The information is presented in "reporting units" as contained in the basic file of colleges and universities for the Higher Education General Information Survey. A "reporting unit" is defined as a single-campus institution, a main or branch campus of an institution with a single central administration, or an institution that is part of a multi-institutional system. The joint libraries, which represent two or more institutions or branches of institutions, have been added as quasi-reporting units for this survey.

For purposes of this report, colleges and universities are institutions that offer programs of at least 2 years of college-level studies in residence or, if nonresident in nature, that are accredited or preaccredited by an accrediting agency recognized for such purposes by the U.S. Commissioner of Education and meet one of the following traditional criteria for listing as institutions of higher education:

1. Institutions accredited by a nationally recognized accrediting agency or approved by a State department of education or by a State university,
2. Institutions that have attained a preaccredited status with designated nationally recognized accrediting agencies, and
3. Institutions not meeting the preceding two requirements, that nevertheless have had their credits accepted as those coming from an accredited institution by not fewer than three institutions accredited by nationally recognized accrediting agencies.

Classification of Institutions

Each institution is identified (in column 2 of each table) by control and type, as follows:

Control of institution:

PUB – *Publicly controlled institutions* are those under Federal, State, State-related, local, or State-and-local control.

PRI – *Privately controlled institutions* are those under independent nonprofit, independent profitmaking, or religious group control.

Type of institution:

U – *Universities* (a) give considerable stress to graduate instruction, (b) confer advanced as well as bachelor's degrees in a variety of liberal arts fields, and (c) have at least two professional schools that are not exclusively technological.

FG – *Other 4-year institutions with graduate programs,* although not classifiable as universities, offer programs leading to graduate or other postbaccalaureate degrees (including first-professional degrees).

FN – *Other 4-year institutions with no graduate programs* offer programs leading to baccalaureate degrees but have no programs leading to graduate or other postbaccalaureate degrees.

T – *Two-year institutions* provide programs of at least 2 but fewer than 4 years of college-level work. These include some trade-technical and business schools as well as community and junior colleges.

The classifications for universities and 2-year institutions are the same as those used in other NCES reports. For the purpose of this report, however, the standard classification "other 4-year institutions" was subdivided to distinguish institutions with and without graduate programs, since 4-year institutions with graduate programs require additional specialized library services.

Method of Reporting the Data

The library data were collected as individual reports for "reporting units"; that is, for the main campus and branch campuses of multicampus institutions and for the institution as a whole for single-campus institutions or for those that are parts of a multi-institutional system. Therefore, there was a separate report submitted concerning the library operations of each institution listed in the *Education Directory, Colleges and Universities, 1975-76,* except those that had no formally organized libraries and those that were members of a joint library. Separate reports were submitted for each of the 18 joint libraries.

Nonrespondents

Of the 2,980 college and university libraries and joint libraries covered in the survey, 58 (1.9 percent) did not return a report. Such institutions are indicated in the tables by the footnote symbol "B"–data not provided. The response rates by control of institution are shown in the following tabulation:

Control	Number of institutions			Percent responding
	Total library universe[1]	Responding	Not responding	
Public and private	2,980	2,922	58	98.1
Public	1,437	1,431	6	99.6
Private	1,543	1,491	52	96.6

[1] Including new libraries.

Institutional Count

The universe of institutions of higher education in the aggregate United States totaled 3,055 in fall 1975. One group needed to be excluded from this survey–the 48 institutions who were members of joint libraries. However, the 18 joint libraries were added, bringing the total number of institutions that were not members of joint libraries and the joint libraries to 3,025. Of this number, 45 institutions reported that they had no libraries, which then reduced the total number of academic libraries and joint libraries to 2,980, including the 8 new libraries. The following tabulation shows the process by control of institution:

Control	Total universe of institutions	Components of adjustment				Total library universe	
		New libraries (–)	No libraries (–)	Members of joint libraries (–)	Joint libraries (+)	Not including new libraries	Including new libraries
Public and private	3,055	8	45	48	18	2,972	2,980
Public	1,453	8	13	6	3	1,429	1,437
Private	1,602	0	32	42	15	1,543	1,543

Verification of Data

To obtain complete and accurate data, the completed questionnaires were examined, analyzed, and reviewed for compliance with the instructions, for completeness, and for accuracy. A clean data base was declared when the following requirements were met:

1. All outright errors (arithmetic, omissions, keytape, etc.) were corrected.
2. All data questioned on a relative or judgmental basis, including data falling outside tolerance limits, were corrected or verified.
3. All institutions were represented in the data file by either a response submitted by the institution or one imputed by NCES.[1]

The editing of the data was accomplished in two phases: the manual or scan edit phase and the machine edit phase. The purpose of the manual or scan edit was to correct minor or obvious errors before keypunching and to spotlight grossly incorrect reports which would not benefit from the full content edit. The machine editing requirements and specifications included the presence/absence checks, consistency checks, tolerance checks of 1975 versus 1973 data, and accuracy checks.[2] The end product of the machine edit phase was a computer printout displaying, in facsimile form, all questionnaires failing the machine edit and listing by error message the particular edit checks that failed.[3] When needed, institutions were contacted by letter or telephone to obtain verification or revision of reported data and/or specific data if omitted.

Explanation of the Tables

In all tables, institutions are listed alphabetically within each State; "U.S. Service Schools" and institutions in outlying areas are shown at the end of each table. Brackets have been inserted in the margin to show the clusters of branches within a multicampus institution or of institutions within a "system" of institutions. Therefore, if the name of an institution is not found in its expected (alphabetic) position in the list, the reader should also see whether the institution appears in one of the *bracketed* sets in the given State. Each of the *bracketed* sets contains the name of the multicampus institution or an institutional system.

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis (i.e., has a relatively permanent administration), which offers an organized program or programs of work of at least 2 years (as opposed to courses), and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

OE FORM 2300-5, 3/75 PREVIOUS EDITIONS OF THIS FORM ARE OBSOLETE.

Please read the following explanations and instructions before completing this form. Detach this portion and mail the completed form either directly to the Department of Health, Education, and Welfare, Education Division, National Center for Education Statistics, ATTENTION: Room 2153-LIBGIS, 400 Maryland Avenue, SW., Washington, D.C. 20202, or to the HEGIS coordinator, if there is a HEGIS coordinator in your State.

In this form, basic data are requested on the collections, staff, expenditures, and developmental areas for college and university libraries. The compilations of these data have proved to be valuable tools for administrators, chief librarians, and others concerned with the improvement of library services to higher education. The data also will assist in the administration of Title II of the Higher Education Act and other programs sponsored by State and Federal agencies. The White House Conference on Libraries, planned to be held in 1976-77, will also use the data.

GENERAL INSTRUCTIONS

1. LIBRARY. For the purpose of this survey, a library is defined as an organized collection of printed, microform, and audiovisual materials which, (a) is administered as a unit, (b) is located in a designated place, and (c) makes printed, microform, and audiovisual materials as well as necessary equipment and services of a staff accessible to students and to faculty.

2. LIBRARY UNITS COVERED. Report consolidated data for all library units of your campus, except medical school libraries and law school libraries, and for all library services provided by your library to clientele of your own institution as well as to clientele outside of your institution.

Fill out a separate form for the main campus and for each branch, campus, or other entity separately certified (with its own individual identification code) by the Accreditation and Institutional Eligibility Unit of the U.S. Office of Education, and listed separately in the *Education Directory: Higher Education*, and for each medical school library and each law school library.

Do not fill out separate forms for extension centers and research installations. Information concerning extension center libraries and research installation libraries should be reported on the form for the main campus; in the case of administratively equal campuses of a multi-campus institution, extension center libraries and research installation libraries should be reported on the form for the most closely related campus. Data on library services in separately budgeted research ("R and D") centers should be included on the form for the appropriate campus.

If it is necessary to omit library data for any part of your campus, such as a law school library or a medical school library, write the name and address of the library unit(s) omitted from this report in item 8. Do not use item 8 to list library units whose data you included on this form.

3. TIME PERIOD COVERED. One period of time (academic year 1974-75) and two points of time (end of academic year 1974-75 and fall 1975) are involved in this survey.

4. NEED FOR ESTIMATES. If an exact figure is not available for a particular item, but the amount is known to be greater than zero, ENTER AN ESTIMATE OF THE AMOUNT. Indicate the fact that the figure is an estimate by parentheses (   ). Estimates are important if exact data are not available. DO NOT LEAVE ANY ITEMS BLANK. Enter "0" if the appropriate entry for an item is zero or "none." Items left blank may be misinterpreted as zeroes or "none." Request help from your business office in providing library expenditure and contracted salary and wage data.

5. INSTITUTION CODE NUMBER. Enter the institution code number at the upper right hand corner of each page, in item captioned "Institution Code Number." This number is given in the upper right corner of the mailing label.

6. QUESTIONS. If you have questions or need more copies of this form telephone the Survey Director, Dr. Stanley V. Smith (202 245-8638, Library Surveys Branch, National Center for Education Statistics, 400 Maryland Avenue, SW., Washington, D.C. 20202.

SPECIFIC INSTRUCTIONS

Part I - Library Collection 1974-75 and Periodicals, Fall 1975

7. ADDED DURING ACADEMIC YEAR (column (a)). Report the gross number added. Do NOT subtract the number withdrawn.

8. BOOK STOCK (lines 9 and 10). Report the library's cataloged collection(s) of books and other printed materials that are cataloged in the same manner as books and that are interfiled with, or that may be interfiled with, books. For example, a government document or a yearbook that has been cataloged as a book and shelved with books, is to be reported as book stock. Collections of government documents, pamphlets, paperback books, technical reports, manuscripts, memoirs, proceedings, transactions of societies, monographic and publishers' series, etc., that are NOT cataloged in the same manner as books should NOT be reported as book stock. Book stock may be cataloged by the Library of Congress, Dewey Decimal, or any other classification scheme adopted by the library.

9. VOLUMES (lines 9 and 11). For reporting purposes, a volume is a physical unit of any printed, typewritten, handwritten, mimeographed, or processed work, contained in one binding or portfolio, hardbound or paperbound, which has been cataloged, classified, and/or made ready for use.

10. TITLES (lines 10, 12, 13, and 15 through 21). For reporting purposes, a title is a publication which forms a separate bibliographic whole, whether issued in one or several volumes, reels, discs, slides, or parts. It applies equally to printed materials, such as books and periodicals, as well as to audiovisual materials and microforms.

Report the number of items for which a separate shelflist card has been made. (SHELFLIST: A record of materials in a library, arranged in the order in which the materials stand when they are shelved or stored.) Thus, six copies of the same edition of a title count as one title; two editions of the same title which have been cataloged or recorded separately count as two titles; a set of six items for which six shelflist cards have been made counts as six titles; and two sets of the same edition for which one shelflist card has been made count as one title.

METHOD FOR ESTIMATING THE NUMBER OF TITLES IN THE COLLECTION: A library which does not maintain a title count of its various collections, and that cannot easily count the number of separate shelflist cards, should use the following statistically sound method for estimating this count:

1. Count the number of titles in one inch of the shelflist cards in the shelflist;
2. Repeat step one at random intervals (e.g., count one inch in every foot) throughout the shelflist;
3. Average the number of titles per inch;
4. Multiply the average titles per inch by the number of inches of cards in the shelflist.

11. PRINTED GOVERNMENT DOCUMENTS. A printed government document is any publication in book or serial form bearing a government imprint, e.g., the publications of Federal, State, local, and foreign governments and of world organizations, such as United Nations, European Common Market, etc.

Include printed government documents NOT in separate collections, but cataloged in the same manner as books, in lines 9 and 10. Report printed government documents housed in separate collections in line 11.

12. MICROFORMS (lines 12, 13, and 14). Microforms are materials that have been photographically reduced in size for storage, protection, and inexpensive publication purposes, and which must be read with the help of enlarging instruments. Examples of microforms are: microfilm, microcard, and microfiche. These are also called microcopy and microtext. All forms of microform are to be excluded from lines 9, 10, and 11, but are to be reported in lines 12, 13, and 14.

13. NUMBER OF PHYSICAL UNITS OF MICROFORMS (line 14). Microform holdings which are NOT reported on lines 12 and 13 should be reported here. For reporting purposes, each item of microfiche, microfilm, and microcards should be counted as "One." Microform holdings reported on lines 12 and 13 should NOT be reported here.

14. PERIODICALS (lines 13 and 21). A periodical is a publication constituting one issue in a continuous series under the same title published *at regular or irregular intervals, over an indefinite* period, individual issues in the series being numbered consecutively or each issue being dated. Newspapers as well as publications appearing annually or less frequently are included in the definition.

15. PERIODICAL SUBSCRIPTIONS (line 21). Report number of titles subscribed to, and not number of individual issues (exclude duplicate subscriptions).

16. AUDIO AND/OR VISUAL MATERIALS (lines 15 through 20). These are nonbook library materials. Some require the use of special equipment in order to be seen and/or heard (e.g., motion pictures, audio recordings, filmstrips, slides, overhead transparencies, and mixed media (multi-media) kits). Others do not require the use of special equipment in order to be seen and/or heard (e.g., flat pictures, study print sets, maps, charts, and games).

Part II - Library Staff, October 1, 1975 and 1974-75

17. PERSONS IN FILLED POSITIONS (Section A, columns (a) through (c)). Report the sum of the number of regular staff and contributed services staff in filled positions on or about October 1, 1975.

18. CONTRACTED SALARIES AND WAGES (Section A, columns (d) and (e). Report the sum of the basic contracted salaries and wages, before any deductions, exclusive of fringe benefits, of the regular staff and the estimated salary equivalents of the contributed services staff in filled positions on or about October 1, 1975. Salaries and wages should be reported on an 11-12 month basis. A salary paid on another basis should be converted to the equivalent 11-12 month salary. For example, a 9-10 month salary should be multiplied by 11/9 to derive the equivalent 11-12 month salary. If a staff member is on sabbatical leave, report his regular salary.

19. ESTIMATED SALARY EQUIVALENTS (Section B, column (b), and included in Section A, columns (d) and (e), and Part III, line 35). Report estimated salary equivalents for contributed services staff on the same basis used for reporting contracted salaries and wages – exclusive of fringe benefits, and on an 11-12 month basis.

20. REGULAR STAFF (included in Section A, lines 22 through 28, and Section C, lines 30 through 33). Regular staff is defined as staff in full-time and part-time positions, usually serving with salary contracts. If your library has staff members who are not students and who are paid on an hourly basis, but who fill positions for which contract salaries are paid in most other libraries, it is essential for the purposes of this survey to report such staff with the regular staff. Students serving on an hourly basis should NOT be included here, but should be reported in lines 34 and 37.

21. CONTRIBUTED SERVICES STAFF (included in Sections A, B, and C, lines 22 through 33). Contributed services staff should be reported only by religious institutions or institutions affiliated with religious or theological organizations. PUBLICALLY CONTROLLED institutions receiving contributed services (if any) should EXCLUDE data respecting such services in this report.

22. FULL-TIME EMPLOYEES (Section A, column (a), and Section C, line 30). Report all paid employees who work the full-time work week established for your library, if your full-time work week is 32 hours or more. However, if your full-time work week is fewer than 32 hours, report all paid employees as part-time employees, in Section A, column (b), and Section C, line 31. Do NOT include volunteer help.

23. PART-TIME EMPLOYEES (Section A, column (b), and Section C, line 31). Report all paid employees who work less than the full-time work week for your library or who work less than 32 hours per week if your work-week is less than 32 hours (see preceding item 22). Do NOT include volunteer help.

24. FULL-TIME EQUIVALENTS OF PART-TIME EMPLOYEES (Section A, column (c), and Section C, line 32). To compute "full-time equivalents" (FTE) of part-time employees, take the number of hours worked per week by a part-time employee and divide it by the number of hours in your full-time work week (or by the number of hours considered by your library to be a full-time work week if your full-time work week is less than 32 hours). The following examples illustrate the method of determining full-time equivalents (FTE's), SHOWN TO ONE DECIMAL PLACE:

a. A part-time employee who works 20 hours per week in a library having a 40 hour work week is computed as follows: 20 divided by 40 equals .5 FTE.

b. A part-time employee who works 20 hours per week in a library having a 30 hour work week is computed as follows: 20 divided by 30 equals .7 FTE.

c. An employee who works in a library on a full-time basis during only one-half of the fiscal year would be counted as ONE PART-TIME EMPLOYEE, and as .5 FTE.

Students serving on an hourly basis should NOT be reported here, but in line 34. Also, do NOT include volunteers, that is, persons who work in the library, but who receive no pay for such work.

25. LIBRARIAN (lines 22-24, and included in lines 30-33). A staff member doing work that requires professional training and skill in the theoretical and/or scientific aspect of library work, as distinct from its mechanical or clerical aspect.

26. CHIEF LIBRARIAN (line 22). The director of the academic library. Also known as head librarian.

27. MEDIA SPECIALIST (line 25). A staff member doing work that requires professional training and skill in educational media, as distinct from its mechanical or clerical aspect.

28. OTHER PROFESSIONAL STAFF (line 26). Report persons who, though not librarians and media specialists, are in positions normally requiring at least a bachelor's degree (e.g., curators, archivists, computer specialists, information and system specialists, subject bibliographers, etc.).

29. TECHNICIANS, CLERICAL STAFF, AND OTHER SUPPORTING STAFF ON THE LIBRARY BUDGET (line 27). Report persons in technical assistance, receiving, shipping, storing, secretarial duties, etc., (exclusive of custodial services and of students serving on an hourly basis) who are specifically assigned to the library and are covered in the library budget.

30. TOTAL NUMBER (Section C, columns (a)-(c)). Each librarian, media specialist, and other professional staff member of the library should be counted once in column (a), and once again in either column (b) or column (c), but NOT in both columns (b) and (c).

31. HIGHEST EARNED DEGREE (Section C, columns (d)-(g)). Each librarian, media specialist, and other professional staff member of the library should be counted in one and only one of the columns (d), (e), and (f), that is, each such member should be counted once in column (d) or column (e) or column (f), but NOT counted in two or all three of these columns. Associate degrees should be included in column (d), "less than a bachelor's degree."

32. NUMBER OF PERSONS WITH GRADUATE DEGREE(S) (Section C, columns (f) and (g)). Report the number of professional persons with graduate degrees, NOT the number of degrees. TOTAL NUMBER OF PERSONS (column (f)) includes all professional persons on the library staff with one or more graduate degrees, whether earned in the library/information science field, or not. NUMBER OF PERSONS WITH GRADUATE DEGREE(S) EARNED IN LIBRARY/INFORMATION SCIENCE FIELD (column (g)) should be less than or equal to the total number of persons with graduate degree(s) (column (f)), and should be the number of professional persons on the library staff with one or more graduate degrees earned in the library/information science field.

33. HOURS OF STUDENT ASSISTANCE (line 34). Report the total number of hours of student assistance, for students serving on an hourly basis, for the academic year 1974-75.

Part III - Library Operating Expenditures, 1974-75

34. AMOUNT (lines 35 through 45). To insure accurate reporting, have your business officer assist with the entries made in these lines. Report only funds expended for the academic year 1974-75, regardless of when the funds may have been received from Federal, State, or other sources. Report all expenditures as whole dollars only, OMIT CENTS.

35. SALARIES AND WAGES OF LIBRARY STAFF (line 35). Report salaries and wages before any deductions, but exclude "fringe benefits" provided by your institution, for all library staff (exclude plant operation and maintenance staff and students serving on an hourly basis).

36. FRINGE BENEFITS (line 36). Report the sum of all fringe benefits provided by your institution for all library staff (exclude plant operation and maintenance staff and students serving on an hourly basis). Fringe benefits are defined as cash contributions in the form of supplementary or deferred compensation other than salary. The employee's contribution should be excluded when determining the dollar value of fringe benefits. Fringe benefits include: retirement plans; hospitalization, surgical, and medical plans; guaranteed disability income protection plans; tuition plans; housing plans; social security taxes; unemployment compensation plans; group life insurance plans; workmen compensation; and other benefits in-kind with cash options.

37. WAGES OF STUDENTS SERVING ON AN HOURLY BASIS (line 37). Report the expenditures charged to the library for the wages of the students who served on an hourly basis and who were reported in line 34, (exclude all expenditures for wages NOT charged to the library). Report wages before deductions, but exclude "fringe benefits."

38. BOOKS (line 38). Report the expenditures for the books purchased during the 1974-75 academic year, as reported in column (e), lines 9 and 10. It should include preprocessing costs, where applicable, but should exclude expenditures for periodical subscriptions and microforms.

39. PERIODICALS (line 39). Report the expenditures for the periodical subscriptions purchased during the 1974-75 academic year. It should exclude expenditures for books, microforms, and binding and rebinding of periodicals.

40. MICROFORMS (line 40). Report the expenditures for all microforms purchased during the 1974-75 academic year, as reported in column (a), lines 12 through 14.

41. AUDIO AND/OR VISUAL SUPPLIES AND MATERIALS (line 41). Report the expenditures for all of the audio and/or visual and materials purchased during the 1974-75 academic year, as reported in column (a), lines 15 through 20. It should exclude expenditures for microforms.

42. BINDING AND REBINDING (line 42). Report the expenditures paid to commercial binderies for all binding and rebinding of books and periodicals during the 1974-75 academic year. Do NOT allocate wages, materials, etc., for binding.

43. LIBRARY EQUIPMENT (line 43). Report the expenditures for all audio and/or visual equipment and/or all other equipment purchased for the library during the 1974-75 academic year; include rental and/or leased charges for reproducing equipment, computer hardware, etc., including maintenance services, where applicable.

44. ALL OTHER LIBRARY OPERATING EXPENDITURES (line 44). The amount reported here should be the difference between the total expenditures (line 45) and the sum of all itemized expenditures (sum of lines 35 through 43) for the 1974-75 academic year.

45. TOTAL LIBRARY OPERATING EXPENDITURES (line 45). This amount should be the sum of lines 35 through 44.

Part IV - Developmental Areas

Section A - Library Loan Transactions, 1974-75

46. CIRCULATION OF MATERIALS TO LIBRARY USERS (line 46). Report the number of transactions of all materials charged out to library users by members of your staff; exclude transactions by dial access. Users include faculty members, students, and others.

47. INTERLIBRARY LOANS (lines 47 and 48). Report the number of items in original and reproduced format provided to and received from other libraries or library agencies that are NOT under the same administration, in response to specific title, author, and/or subject requests.

Section B - Library Physical Facilities, Fall 1975

48. NET ASSIGNABLE AREA (line 49). Net area, in square feet, of space assigned for library purposes, is the total space which can be put to use in furtherance of the library's mission. It consists of the sum of all areas on all floors of the buildings that have been assigned to or are used for library functions or purposes. It includes space for readers and reading areas, bookstack and related storage areas for the book collections, audiovisual materials, and other materials, working spaces for staff, space for services to users (including the card catalog), public service desks, copying equipment, audiovisual equipment, other library equipment, aisles between bookstack ranges and library furnishings, and similar useful space. Such space does NOT include vestibules, lobbies, or traffic areas, janitorial or custodial storage or service areas, toilets, elevator or stairway space, building corridors, or similar space not specifically used for library functions.

The number of square feet in the net assignable area is determined by measuring the space between the permanent interior walls. Floor areas occupied by built-in furnishings such as service counters, closets, and shelving, are included in the wall-to-wall net square feet. No deductions are made for columns or for projections necessary to the building structure.

49. SHELVING CAPACITY (line 50). The total length, in feet, of the shelving available for the library materials is determined by adding the length, in feet, of all of the shelves in the bookstack sections and in the audiovisual and other materials sections. Only the shelves in the sections used for shelving the regular collections should be counted. Such shelving does NOT include shelves for materials-in-process in technical services areas, staging or sorting shelves in the circulation areas, shelves serving as bookcases in offices, and shelves in receiving rooms used for storing transient materials.

50. SEATING CAPACITY (line 51). The number of seats available for the library users should be given for the library as a whole, including: general reading area seats, lounge seats, group study seats, audiovisual area seats, other materials seats, study carrels, study area seats, typing room seats, seminar room seats (when available on an open basis), etc. Seats at index tables, card catalog reference tables, and other "non-study" seats should not be counted in the total, nor should seats in locked rooms not normally open to library patrons, such as auditorium and general meeting room seats.

Section C - Library Hours and Days Open Per Week, for General Users, Central or Main Library Only, Fall 1975

51. TYPICAL WEEK (lines 52 and 53). A typical week is a week in which the central or main library is open its regular hours for general users, containing no holidays.

52. HOURS OPEN PER TYPICAL WEEK (line 52). This is the total number of hours the central or main library is open for general users in a typical week, and is determined by adding the number of hours the library is open to general users for each day of the typical week. Report the total in whole hours only, omit fractions.

53. DAYS OPEN PER TYPICAL WEEK (line 53). This is the total number of days the central or main library is open to general users in a typical week, and is determined by adding the number of days the library is open to general users for two hours or more for each day of the typical week. Report the total in whole days only, omit fractions.

Section D - Participation in Consortium, Cooperative Arrangements, and/or Networks, Fall 1975

54. CONSORTIUM, COOPERATIVE ARRANGEMENTS, AND/OR NETWORKS (lines 54 and 55). Cooperative arrangements among institutions, such as consortia, centralized data and technical processing systems, joint acquisition and reference services programs, and other similar activities, coupled with communication capabilities, are called networks.

Section E - Classification System Used for New Acquisitions, Fall 1975

55. CLASSIFICATION SYSTEM (line 56). A design for arranging books and other materials according to subject or form.
